## Auditors' Report

---

Fellow Townsmen: We submit to you the annual report of 1914:—

We have visited the town farm and found everything kept in a husbandlike manner. A new evaporator and sap buckets have been purchased. A water shed built, protecting the water so that it does not freeze over. The cow stable floors have been changed and barn clapboarded above the stable. We would suggest that the piggery be repaired or a new one built at the barn. The increase in the cost of schools is due largely to the repairs ordered by the board of health. The town school district should raise a larger tax to wipe off this indebtedness. Your road commissioner reports that the county commissioner has ordered state repairs and has not reimbursed the town for the amount spent. Last year the report showed an over work of \$132 67 and that has not been paid by the state. You will note by the increase of debt that we must raise a larger town tax or the town will be bankrupt.
